Profile

After working as a full-stack software developer for the past year, I am now looking for specialise as a front-end developer. I am passionate about brining ideas with instinctive UI/UX and clean code. I have built full-stack applications in Angular and React with TypeScript as well as developing single SaaS applications.

Professional Experience

- April 2023- Present (Permanent Contract)

RiskChallenger | Amersfoort, NL

Full-Stack Software Developer

RiskChallenger is a SaaS scale-up specialising in risk management software. Clients include Boskalis, Van Gelder, Van Oord, Alliander, Count & Cooper, as well as various Ministries of the Netherlands. I am working in a team of 10 developers with the following duties:

- Maintain and improve SaaS product
- Work across all 7 apps and databases
- Use TypeScript within Angular framework
- Testing with Jest and Cypress

- Jan 2023 - March 2023 (Contract Position)

School of Applied Technology | Amsterdam, NL

Full-Stack TypeScript Trainee

The School of Applied Technology < /SALT > is an embedded recruitment provider that puts all students through a rigorous 3 month professional training bootcamp. I was 1 of only 25 successful applicants form 1000+ applications and trained in the following areas:

- TypeScript & React Frameworks
- Asynchronous coding using multiple RESTful APIs
- Creating/working within a TDD + unit testing environment

- 2015 - 2022

Beatnikz Republic Brewing Co. | Manchester, UK
Founder / Owner

Duties/achievements include:

- Created a brand new brewery; raised £550k+ capital investment
- Brand design + art direction for all brand elements + products
- Building a team of 20+ staff across 3 businesses
